Valued Quality. Delivered.

Directory of ETL Verified Cabling Products

Choose the World's Fastest-Growing Certification mark

Intertek is the leading international provider of quality and safety services to a wide range of global and local industries. We are an OSHA Nationally Recognized Testing Laboratory (NRTL), an American National Standards Institute (ANSI) Accredited Certification Body, an SCC approved Testing Organization and Certification Body. The ETL Listed Mark is now the fastest growing certification mark in North America. It is accepted by retailers, distributors, inspectors, and code enforcement officials across North America. We are committed to providing you with the necessary testing and certification services you need to reach your target market quickly. We can also work with you to develop ongoing compliance-testing programs to ensure that new product components do not compromise the quality and performance of your product.

Intertek

March 2012

Access Decades of Expertise

Being the industry leaders in the testing and certification of cabling products, we have the capabilities to offer a wide range of services for all types of cabling/network products.

Some of our services include:

- ETL Verification Mark and ETL Safety Listing Mark
- Category 5e, 6, 6A/6_A, 7 and 7_A, TIA, ISO and EN standards
- Class D, E, F, E_A and F_A ISO and EN cabling standards
- A2LA accredited for electrical transmission parameters testing
- Fiber and Copper Cable Testing
- Hardware, Channels and Individual Components
- Verizon ITL for GR 20, GR 409, GR 771, GR 765, and VZ.TPR.9433
- Cabinets, Enclosures and Pedestals - GR 950-CORE, GR 487-CORE, GR 1308-CORE
- NEBS Testing for Hardware Deployed in the Central Office and/or Data Centers - GR 63-CORE and GR 1089-CORE
- Comparison Testing and Vendor Qualification Programs
- Fire, Smoke and Toxicity Testing
- Special Applications: Haz Loc, MIL Standards, MICE,
- Shipboard and Offshore Platforms
- RoHS and Green Services
- EMC testing of cabling products to international standards
- Independent Field Verification

To learn more about Intertek's Cabling Products Testing Services, or to request a quote, visit <http://www.intertek.com/cabling-products> or e-mail icenter@intertek.com.

To see a complete list of our offices, visit www.intertek.com/contact.

Overview of our Cabling Products Verification Programs

When a Manufacturer enters a cabling product into a verification program they must provide an Initial Qualification sample to Intertek. The sample is then independently tested to the specifications of the appropriate standard (or standards). If found to meet the requirements of the standard, an Intertek field representative is then sent to the cable's manufacturing location to independently select a Final Qualification sample for further independent testing. Then, assuming the second cable is found to meet the performance requirements, the cable will be entered into the ETL Verification Program. From this point forward, the cabling product may be marked by the Manufacturer as "ETL Verified". The Manufacturing facility is subject to quarterly audits and follow-up testing of the cabling products to ensure ongoing compliance. So long as the cabling product continues to meet the minimum requirements of the standard, it will remain in the verification program and may be marked accordingly by the Manufacturer.

Surface Printing on ETL Verified Cable Products

Although surface printing is not a requirement of the ETL Verification Program for Cable, it is highly recommended.

The ETL verification should be at the end of the print legend with no other information following it.

For TIA-568 Cable Verification the legend **shall** contain; "ETL Verified to TIA-568-C.2 Category X". "X" may be 3, 5e, 6, Cat 6A. Category may be abbreviated "Cat". In all cases the Category must be included in the legend as applicable.

In the case of a Category, which is in draft stage, the print legend shall read: "ETL Verified to TIA-568-C.2 Category # draft YYYY". "YYYY" is the applicable alphanumeric draft designation and **shall** be included.

In the case of Patch Cables, the words "Patch Cable" **shall** immediately follow the Category # designation.

Other specifications ISO/IEC or Cenelec may be included, but if the Category is different, it must follow the reference specification.

The exact order of the wording may be changed (see alternate below) if approved by the ETL Program Administrator or Technical Manager.

Examples of print legends to be used:

ETL Verified to TIA-568-C.2 Category 3
ETL Verified to TIA-568-C.2 Category 3 Patch Cable
ETL Verified to TIA-568-B.2 Category 5
ETL Verified to TIA-568-B.2 Category 5 Patch Cable
ETL Verified to TIA-568-C.2 Category 5e
ETL Verified to TIA-568-C.2 Category 5e Patch Cable
ETL Verified to TIA-568-C.2 Category 6
ETL Verified to TIA-568-C.2 Category 6 Patch Cable
ETL Verified to TIA-568-C.2 Category 6
ETL Verified to TIA-568-C.2 Category 6 Patch Cable
ETL Verified to TIA-568-C.2 Category 6A
ETL Verified to TIA-568-C.2 Category 6A Patch Cable
ETL Verified to TIA-568-C.2 Category 6A
ETL Verified to TIA-568-C.2 Category 6A Patch Cable

Should = recommended

Shall = required and must be meet

Alternate: Verified ETL Category 3 TIA-568-C.2

Proven Performance. Beyond Industry Standards.

Berk-Tek's LANmark-2000, LANmark-1000, and LANmark-350™ cables are three of the highest performing UTP cables available today. Each offers guaranteed performance that significantly exceeds industry standards, providing headroom for advances in technology for many years to come. And now ETL has independently verified our listed specification claims on the Berk-Tek LANmark-2000, LANmark-1000, and LANmark-350 cables.

ANSI/TIA-568-C.2 Category 5e, ISO/IEC 11801 Category 5, and Berk-Tek LANmark-350 Performance Specification for 4 Pair 100 Ohm Category Cabling

LANmark-350, CAT5E+ UTP, 4 Pair, 24 AWG, Patch (Stranded) Cable
LANmark-350, CAT5E+ UTP, 4 Pair, 24 AWG, CMP, Horizontal (Solid) Cable
LANmark-350, CAT5E+ UTP, 4 Pair, 24 AWG, CMR, Horizontal (Solid) Cable

ANSI/TIA-568-C.2 Category 6, ISO/IEC 11801 2nd Edition Category 6, and Berk-Tek LANmark-1000 Performance Specification for 4 Pair 100 Ohm Category Cabling

LANmark-1000, CAT6 UTP, 4 Pair, 24 AWG, Patch (Stranded) Cable
LANmark-1000, CAT6 UTP, 4 Pair, 23 AWG, CMP, Horizontal (Solid) Cable
LANmark-1000, CAT6 UTP, 4 Pair, 23 AWG, CMR, Horizontal (Solid) Cable

Search the Directories of Certified Products

Intertek provides safety and performance certification services to nationally recognized standards for a wide range of electric, gas, and oil-fueled products. These products range from commercial/consumer appliances to HVAC equipment to manufactured wood products. Items listed in our online directories will bear one of the ETL Listed, ETL Verified, ETL-EU, GS, S, RoHS, ASTA, BEAB, or Warnock Hersey Listed Marks.

If you have any questions about our directories, would like to report an ETL Listed product that does not appear to be compliant, or would like to report an ETL Listed product that has been involved in an accident, [click here](#) and we'll address your inquiry as soon as possible. For immediate assistance, please call +1-888-DIRLIST (+1-888-347-5478).

Directories:

[ETL Listed Mark Directory](#): Any product bearing this mark has been tested and meets the minimum requirements of prescribed product safety standards for North America.

[ETL Verified Mark Directory](#): A product bearing this mark has been tested and proven to comply with the minimum requirements of a prescribed industry standard.

ETL Listed Cabling products for Safety Listings

Listed below are some of the standards that are in our ETL Listed Mark Directory for the cabling products that are ETL Safety Listed.

- CAN/CSA-C22.2 No. 239-97: Control and Instrumentation Cables
- ICEA S-68-516 and UL 1072: Medium Voltage Cables
- Marine Shipboard Cables: IEC 60092-3 Cables Construction Testing & Installation
 - IEC 60092-350 Low-Voltage Shipboard Power Cables
 - IEC 60092-351 Insulating Materials for Shipboard Power Cables
 - IEC 60092-353 Single & Multicore Non-Radial Field Power Cables
 - IEC 60092-354 Single-Core and Three-Core Power Cables
 - IEC 60092-359 Sheathing Materials for Shipboard Power & Telecommunications Cables
 - IEC 60092-376 Shipboard Multicore Cables for Control & Instrumentation Circuits
- IEC 60502 Fourth Edition: Marine Shipboard Cables
- IEC 60794-1: Optical Fiber Cables Part 1
- IEEE 45, IEEE 1580, and UL 1309/CSA C22.2 No. 245: Marine Shipboard Cables
- NFPA 70: NEC Article 343
- UL 5 & UL 5A: Surface Raceway & Fittings
- UL 13: Power-Limited Circuit Cables
- UL 1424: Power-Limited Fire-Alarm Circuits
- UL 1425: Non-Power-Limited Fire-Alarm Circuits
- UL 44: Thermo Set-Insulated Wires & Cables
- UL 83: Thermoplastic-Insulated Wires & Cables
- UL 444: Communications Cable
- UL 651: Schedule 40 and 80 Rigid PVC Conduit
- UL 651A: Schedule for Type EB and A Rigid PVC Conduit and HDPE Conduit
- UL 651B: Continuous Length HDPE Conduit
- UL 758: Appliance Wiring Material
- UL 817: Cord Sets and Power-Supply Cords
- UL Subject 1276: Welding Cable
- UL 1277: Electrical Power and Control Tray Cables with Optional Optical-Fiber Members
- UL 1363: Re-locatable Power Taps
- UL 1565: Positioning Devices
- UL 1651: Fiber Optic Cable
- UL 1655: Community-Antenna Television Cables
- UL 1682 and MIL-C5756C: Thermo Plastic Insulated Wires & Cables
- UL 1690: Data-Processing Cable
- UL 1863: Communications-Circuit Accessories
- UL 2024: Optical Fiber Cable Raceway
- UL 2024A: Optical Fiber and Communication Cable Routing Assemblies
- UL 2225: Cables & Cable-Fittings
- UL 2261: Network-Powered Broadband Cable
- UL 2424: Limited Combustible Cable
- UL 4703: Photovoltaic Wire
