

CERTIFICATE OF CONFORMITY

TRADING WITH KURDISTAN

Intertek's Total Quality Expertise supporting
Exporters and Importers to comply with the
Conformity Assessment Programme
in Kurdistan

Exporters/Importers trading with the Kurdistan region need to comply with the requirements of Kurdistan's Consignment Based Conformity Assessment (CBCA) service. Failure to do so can result in severe delays in goods clearance, penalties, or even shipments being returned. Intertek has been appointed as the sole Certification Body authorised to issue Certificates of Conformity for regulated product consignments exported to Kurdistan.

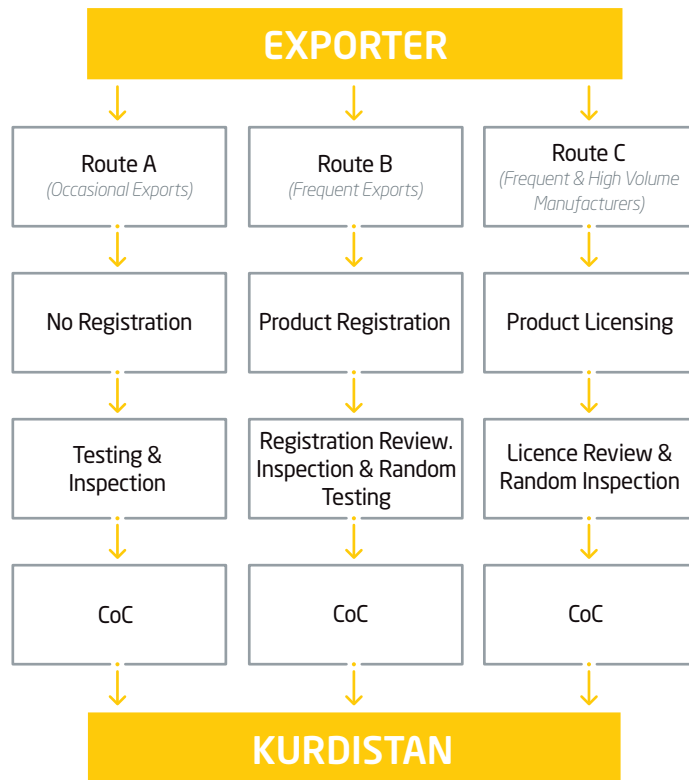

The Conformity Assessment programme verifies the conformity of regulated products which are; Toys, Electrical and Electronic Appliances, Vehicles & Vehicle Spare Parts, Construction Products, Household Hardware, Kitchenwares, Household Cooking Appliances, Stationery, Measurement Equipment, Baby Care Items, Jewellery (precious metals except gold and silver, imitation) and Medical Equipment in the respective exporting countries.

The Programme focuses primarily on safety and quality standards giving Kurdistan consumers the assurance they need in the quality and safety of goods being imported and helping to protect their environment.

The requirements for Kurdistan are:

- Every consignment of imported goods which contains regulated products must be accompanied by a Certificate of Conformity (CoC) issued by your local Intertek Country Office prior to shipment. Contact your local Intertek office, details can be found at www.intertek.com/government
- The Certificate of Conformity is required to ensure smooth Customs clearance of shipments in Kurdistan.
- The Certificate of Conformity confirms that the products comply with the relevant Kurdistan technical regulations and approved standards.
- The authorities in Kurdistan may take random samples from imported consignments to verify compliance.
