

STANDARD INFORMATION

This SUN establishes Continued Certification for currently Listed UL/CSA 60950-1 Listing Reports, and introduces UL/CSA 62368-1 as the superseding standard. This SUN replaces the UL/CSA 60950-1 SUN previously issued on November 9, 2016

Superseded Standard: UL 60950-1, 2nd Ed. 2007 (includes all revisions) and CAN/CSA-C22.2 No. 60950-1-07 (includes all revisions); Information Technology Equipment – Safety – Part 1: General Requirements

Superseding Standard: UL 62368-1 and CSA C22.2 No. 62368-1 2nd Ed.; Audio/video, information and communication technology equipment – Part 1: Safety requirements

EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

Effective Date: **January 1, 2022**

IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement:

- Existing certifications of unchanged products will be maintained indefinitely*.
- Effective **June 5, 2017**, both NEW & technically modified products (e.g. changes to the design, ratings, or the use of alternate components requiring a certification decision) must be evaluated to UL 62368-1 2nd edition unless the Applicant requests in writing that current UL/CSA 60950-1 requirements be used.
- Effective **January 1, 2022**, only the latest Standard Revision of UL 62368-1 will be used for the evaluation of both technically modified, and/or new products.

* In the event that UL/CSA 60950-1 is withdrawn and current Listings are no longer valid, sufficient notice will be given to ensure a smooth transition takes place as your Listing Report(s) are evaluated to the current edition of UL 62368-1.

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.
