Sourcing Tips: The Latest Jewelry Marketing Trends for Retailers

Jewelry sales is a business heavily influenced by isolated, short-term market trends, while at the same time reflecting more universal influences seen across retail industries brought about by advancements in online marketing and technology. This makes jewelry marketing a complex business that requires both persistence and creativity.

Succeeding in this challenging business where low profit margins and high overhead costs exist requires jewelry marketers to stay on top of what's currently going on in the industry. [Read more...](#)
