

Calibration Division

Calibration expertise for shore installations

Intertek

Valued Quality. Delivered.

Intertek provides accurate and detailed measurement and calibration of large petroleum and chemical cargo storage tanks, including shore tanks. Using the latest technology for tank calibration, engineers and technicians are highly skilled and equipped with state-of-the-art measuring devices. Intertek measures and calibrates tanks of various shapes, sizes and designs. Loss Control investigations are available from seasoned experts with years of industry experience.

Storage tank calibration capabilities:

- Horizontal and Vertical Land Tanks Calibration, both internal and external by Laser and Triangulation
- Pipeline Volume Calculations
- Custody Transfer Systems (CTS)
- Verticality by EODR (Electro Optical Distance Ranging)

Petroleum and chemical storage tanks calibrated:

- Vertical Tanks
- Horizontal Tanks
- Cylindrical Tanks
- Double-wall Tanks
- Spherical Tanks
- Truck Tanks
- Fixed Roof Tanks
- Floating Roof Tanks
- Domed Roof Tanks
- Conical Roof Tanks
- LNG Tank Calibration
- Rail Cars

About Intertek

Intertek is a leading quality solutions provider to industries worldwide. From auditing and inspection, to testing, training, advisory, quality assurance and certification, Intertek adds value for its customers by helping improve the quality and safety of their products, assets and processes. With a network of more than 1,000 laboratories and offices and over 36,000 people in more than 100 countries, Intertek supports companies' success in the global marketplace, by helping customers to meet end users' expectations for safety, sustainability, performance, integrity and desirability in virtually any market worldwide.
