

REACH Only Representative (OR) Regulatory Services

Intertek

Valued Quality. Delivered.

European Union (EU) producers, users and importers need to prepare for the final REACH registration deadline on the 1st June 2018, which covers all phase-in substances manufactured or imported into the EU at and above 1 tonne per year not previously registered.

Non-European Union (EU) manufacturers are not permitted to submit REACH registration dossiers to the European Chemicals Agency (ECHA). Under Article 8 of REACH, a non-EU manufacturer may appoint an Only Representative (OR) in order to fulfil the registration obligations on his behalf.

Intertek Health, Environmental & Regulatory Services (HERS) has longstanding experience acting as an OR for many clients around the world.

Are you dissatisfied with your current service provider and their depth of knowledge of REACH? The quality of their support / communication? Are you getting value for money? The HERS OR function supports companies looking to enter the EU market for the first time with a competitive, comprehensive and tailored service and is also available for those who wish to transfer to a new OR service provider. Compliance audits by European Competent Authorities of Intertek Only Representative services have all been successful.

You can appoint a new Only Representative, subject to certain REACH / ECHA protocols being followed. Let Intertek support your brand protection and market share with first class REACH OR support and compliance.

Steps to Compliance:

- Appointment of Only Representative
- REACH Registration
- Data Management & Updating of Registration Information
- Fulfilment of Legal Responsibilities for Customer REACH Compliance
- Communication of Information Down and Up the Supply Chain

REACH Only Representative (OR) Services - 2008 to 2018 and Beyond

Year	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019
