

Business Social Compliance Initiatives (BSCI) Services

Your Challenges

The Business Social Compliance Initiative (BSCI) Monitoring System is the European approach to improving social performance in supplier countries through a uniform social standards monitoring solution. The BSCI is based on the labor standards of the International Labor Organization (ILO) and other important international regulations like the UN Charta for Human Rights, as well as on national regulations. This initiative aims at continuously improving the social performance of suppliers, ultimately enhancing working conditions in factories worldwide.

The BSCI monitoring system:

- Provides standardized management tools for all companies in all countries
- Supplies a database: information pool to optimize coordination of the process
- Is open to retailers, importers, and manufacturers
- Involves all stakeholders in Europe and supplier countries
- Report valid for 3 years.

Our Solutions

With over 1000 offices and labs in over 100 countries, Intertek is an accredited monitor for the BSCI system with well trained auditors fully prepared to support your BSCI monitoring needs no matter where your suppliers are located. As your partner through the process, guiding you every step of the way, Intertek can assist you in becoming a member of the BSCI, complying to BSCI standards on an ongoing basis, and ensuring your suppliers do the same to:

- Save both time and money; since partnering with Intertek (a leading BSCI accredited service provider) from the beginning will prevent multiple auditing services needed down the road
- Optimize working conditions
- Increase productivity
- Improve product quality
- Increase satisfaction for workers and consumers
- Impose the same requirements for all suppliers involved in the supply chain
