

IFS & IFS Logistic Services & IFS Broker (International Foods Standards)

At Intertek, it is our sole mission to provide not only the one-stop-shop you seek for all food services, but also establish a trusted partnership with your business - consistently adding value and increasing your competitive advantage in the industry with every step we take together.

Your Challenges

From the farm to the fork, the entire food industry itself has evolved into a diverse network of multiple channels. More often we find the core operational structure, as well as various business processes involved in food production and distribution, fail to communicate and align with one another.

If food safety and quality procedures like International Food Standards (IFS) are not understood, implemented, and embraced by all parties involved, not only is the quality of the food produced at risk, but also the reputation and brand value of the company behind it.

Our Solutions

With over 1,000 offices and laboratories worldwide and highly qualified auditors, Intertek can help you achieve your goals and fulfill your customers' requirements in terms of both food quality and safety.

IFS certification is now widely recognized and accepted for food businesses and retailers alike. Intertek has been accredited to support and certify your manufacturing facilities and organizations according to IFS including IFS logistics with several services such as:

- **Training / advisory:** where you can learn about requirements to implement IFS.
- **Pre-audit certification:** where you can identify non conformities, strengths and weaknesses before the actual certification audit is complete.
- **Initial audit:** where the first actual certification IFS audit is completed.
- **Follow-up audit:** to renew your IFS certificate.

IFS and IFS logistics and IFS broker certification will enable you to work with all food businesses and retailers alike.
