

Worldwide Responsible Apparel Production (WRAP) Services

Your Challenges

The Worldwide Responsible Apparel Production (WRAP) Principles are core standards for production facilities participating in the Worldwide Responsible Apparel Production Certification Program. The program's objective is to independently monitor and certify compliance with these socially responsible global standards for manufacturing, and ensure that manufactured products are produced under lawful, humane and ethical conditions.

Participating retailers voluntarily agree that their production and that of their contractors will be certified by the WRAP Certification Program as complying with these standards. Furthermore, the WRAP Program places primary responsibility for improving workplace conditions on those who own and operate sewn product manufacturing facilities.

As a participating member of WRAP, how do you ensure manufacturers, suppliers and buyers that support your overall supply chain comply to these standards and more?

Our Solutions

Intertek is selected as the world-wide independent monitor of choice for many of the world's top retailers, so it is no surprise that Intertek is widely recognized and accepted by retailers and manufacturers supporting the WRAP Program. While firms using non-accredited providers are daunted by the need for additional monitoring services – clients that partner with Intertek from the beginning avoid those costs and hassles with assurance in our status as a leading WRAP-accredited solutions provider.

With over 1000 offices and laboratories in over 100 countries, Intertek's professional team of qualified local auditors monitor each client's Code of Conduct and ensure at every step in the supply chain compliance to the following WRAP Principles are achieved:

- Compliance with Laws and Workplace Regulations
- Freedom of Association & Collective Bargaining
- Prohibition of Harassment or Abuse
- Prohibition of Discrimination
- Prohibition of Forced Labor
- Prohibition of Child Labor
- Compensation and Benefits
- Hours of Work
- Health and Safety
- Customs Compliance
- Environment
- Security
