Valued Quality. Delivered.

Trading with Mozambique

Helping you comply with export
and import requirements

Like many governments around the world, it is important that Mozambique ensures that correct import duty revenues are paid on all imported goods, as per the Government's requirements. It is also necessary that illicit cargoes are intercepted and citizens are protected from sub-standard products.

This is why Mozambique have appointed Intertek as the sole provider of its inspection programme. Specific goods (known as the Positive List) may be subject to inspection in the country of export before they are allowed into Mozambique. Goods on the Positive List must comply with these regulations and be accompanied by a Documento Único Certificado (DUC).

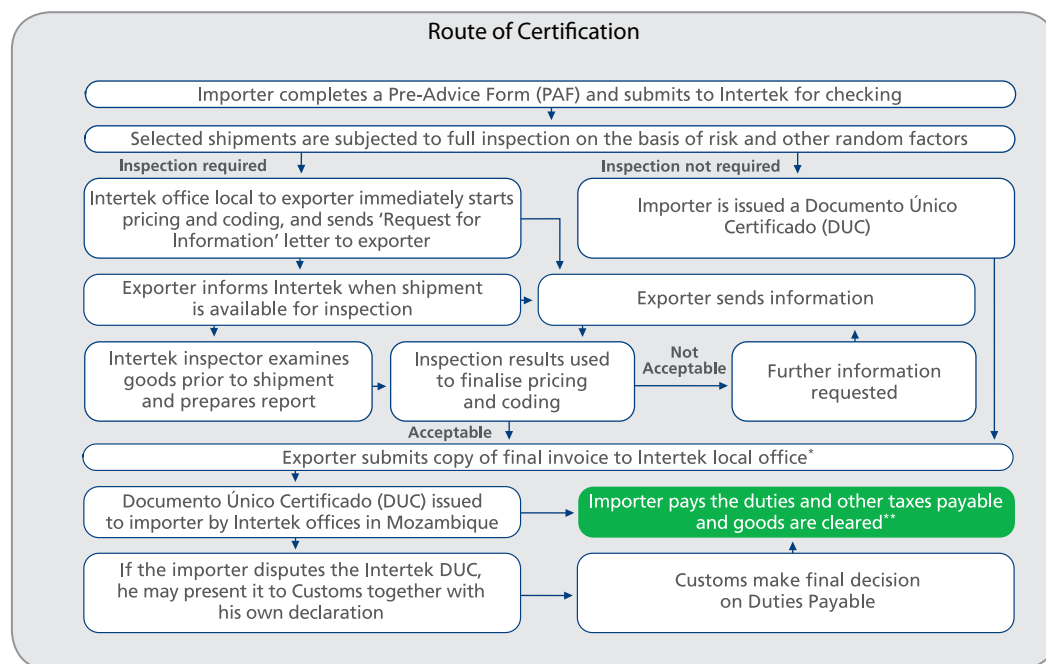

The requirements for Mozambique include:

When exporting goods on the Positive List to Mozambique, the following Intertek process must be followed:

- Importer Advice - Your buyer supplies Intertek with the details of their intended purchase.
- Request for Information - Once completed, it outlines the details for Intertek's inspection.
- Physical Inspection - All packages or containers of goods are inspected and sealed.
- Pricing and Tariff Coding - Intertek indicate the Customs tariff code and an opinion on the value for customs clearance purposes.
- Preparation of Importer Certificates - Your buyer is issued with an Importer Certificate.
- Clearance of Goods - Your buyer can clear the shipment through customs.

The flow diagram below shows how the process works in more detail.

The Intertek Solution helping you export to Mozambique

- An Intertek inspection programme not only creates the confidence that shipments comply with the specifications agreed between the exporter and buyer, it also assists buyers by clearing goods rapidly on arrival in Mozambique.
- Fast - Intertek uses state-of-the-art IT and communication systems to ensure information is rapidly transmitted to our offices around the world.
- Accurate - Intertek staff place the utmost importance on ensuring all inspections and documentation are precise, accurate and delivered on time.
- Responsive - Your dedicated Intertek Export Analyst is your one-stop contact who can give you any advice about the inspection programme.
- Confidential - Intertek comply with all applicable WTO legislation, including the requirement to keep all information completely confidential.
