

Trading with Tanzania

Helping you comply with export and import requirements

Exporters/Importers trading with Tanzania need to comply with the requirements of the Tanzania Bureau of Standards (TBS) Pre-Export Verification of Conformity (PVoC) to Standards Programme in order for their goods to clear Customs. Failure to do so can result in severe delays in goods clearance, penalties or even shipments being returned.

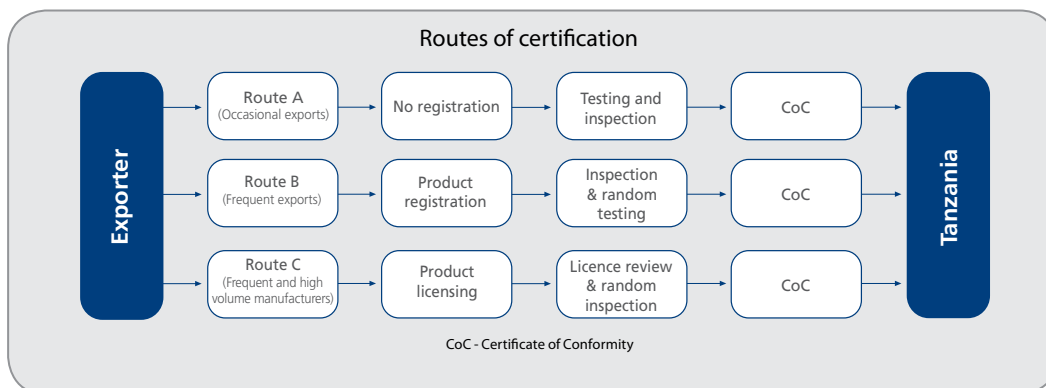

The Tanzania PVoC has been implemented to assure Tanzanian consumers of the quality and safety of imported goods and to facilitate trade. 'Regulated Products' within the programme require a Certificate of Conformity which verifies, in the respective exporting countries, that the products comply with the applicable Tanzanian technical regulations and mandatory standards or approved equivalent International/National Standards.

The requirements for PVoC include:

- Every consignment of imported goods which contains regulated products must be accompanied by a Certificate of Conformity (CoC) issued by your local PVoC Country Office prior to shipment.
- The PVoC Certificate is required to ensure smooth Customs clearance of shipments in Tanzania.
- The PVoC Certificate confirms that the products comply with the relevant Tanzanian technical regulations and approved standards.
- The authorities in Tanzania may take random samples from imported consignments to verify compliance.
- Additional details on the PVoC procedure and a list of Regulated Products currently requiring PVoC certification are available at www.intertek.com/government

The Intertek Solution helping you export to Tanzania

Intertek has experience in providing solutions to businesses exporting a wide range of products to Tanzania. We have undertaken more assessments of more products for longer than any other organisation.

- Intertek has a global network of offices that have operated PVoC programmes for many years, issuing over 1.5 million certificates and test reports.
- Our staff are experts on Tanzanian standards and requirements as well as understanding the needs of exporters and importers.
- Intertek has one of the world's largest networks of laboratories, authorised to test to Tanzanian requirements including electrical, chemical, cosmetic, toy, automotive goods and many others.
- Intertek is fully committed to supporting Governments in achieving their sustainability targets by protecting their environment from unsafe and poor quality goods.
- The PVoC Certificate is recognised and trusted by TBS and by Tanzanian Customs.
- Intertek can provide a tailor-made service that meets your particular needs, including:
 - Submission of assessment requests online
 - Automated e-mails for status of certificates
 - Flexible certificate delivery solutions for high volume users
