Verification/Report Number	104292913CRT-001
Product Tested:	Field Tester
Model(s) and or Brand Name:	MMVNA-200
Standard(s)/Specification:	ANSI/TIA-1152-A (Levels IIIe and 2G) and IEC 61935-1 Ed. 5 (Levels IIIe, V, VI Class I and Class II) Baseline level with the applicable field tester parameters and measurement comparison with the network analyzer
Product package marking shall include:	ETL Verified to ANSI/TIA-1152-A (Levels IIIe and 2G) and IEC 61935-1 Ed. 5 (Levels IIIe, V, VI Class I and Class II) Baseline level and the product model(s) and or brand name.

Continuing compliance to this specification is monitored through production testing, quarterly inspections by Intertek at the production facility and random sample testing.

Date Verified: July 14, 2020

Approved By:

Antoine Pelletier, Project Engineer

This verification supersedes all previous verifications with the noted Verification/Report number(s) dated before this verification notice.

NOTE: This verification is part of the full test report(s) and should be read in conjunction with it.

This Verification is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this Verification. Only the Client is authorized to copy or distribute this Verification. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results referenced from this Verification are relevant only to the sample tested. This Verification by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.
