

CERTIFICATE OF CONFORMITY

# TRADING WITH BANGLADESH

Intertek's Total Quality Expertise supporting  
Exporters and Importers comply with the  
Conformity Assessment Programme  
in Bangladesh

The Government of the People's Republic of Bangladesh, through the Ministry of Commerce, has issued an order regulating the import of regulated products to maintain quality as per Bangladeshi Standards (BDS) of products entering into the Bangladesh market.

Exporters and Importers for Bangladesh need to comply with this order. Regulated shipments must be tested in an accredited laboratory and the test reports must be in compliance with the applicable BDS. Evidence of compliance such as a Certificate of Conformity (CoC), or valid test report, will be required to expedite Customs Clearance and avoid a delay from post landing examination and testing.

### The requirements for Bangladesh are:

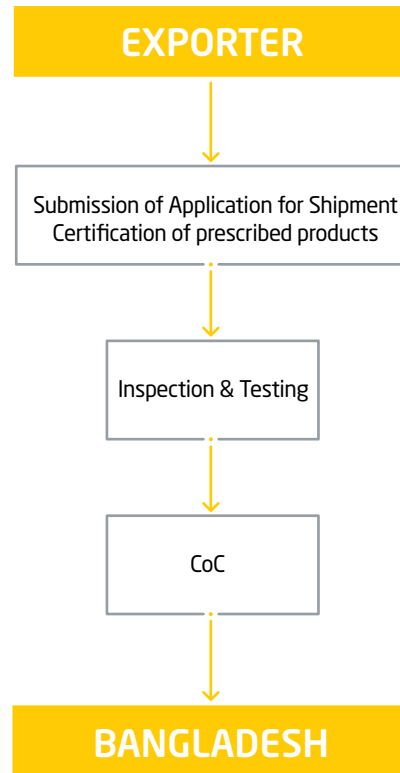

- Every consignment of imported regulated goods must be tested in an accredited laboratory.
- Test reports must be in compliance with the applicable BDS.
- Accompanied by evidence of compliance such as a Conformity Certificate or valid test report.
- Certificates and test reports are needed to ensure customs clearance of shipments.
- Regulated Products not accompanied by a CoC and test reports may be subject to post landing examination and testing resulting in a delay in clearance or possible return to port of origination.

### Regulated products include but are not limited to:

- Ceramics and Sanitary Ware
- Health and Beauty Products
- Papers
- Foods items including milk powder
- Switches and Plugs
- Construction materials
- Batteries

Further details of the new requirements are available at [www.intertek.com/government](http://www.intertek.com/government)

### Exporter routes to certification for Bangladesh

CoC - Certificate of Conformity

### The Intertek Solution helping you export to Bangladesh

Intertek has experience in providing solutions to businesses exporting a wide range of products to Bangladesh. We have undertaken more assessments of more products for longer than any other organisation.

- Intertek has a global network of offices and has been present in Bangladesh since 1997
- Our staff are experts on international standards and requirements, as well as understanding the needs of exporters and importers.
- Intertek has one of the world's largest networks of laboratories, authorised to test to Bangladesh's requirements including electrical, ceramics, cosmetic, food and many others.
