

Standard Information

Standard Number: CSA C22.2 No. 184

Standard Name: Solid-state lighting controls

Standard Edition and Issue Date: 4th Edition Issued February 1, 2015

Date of Previous Revisions to Standard: 3rd Edition Dated December 1, 2012

Effective Date of New/Revised Requirements

Effective Date (see Processing Schedule below): **January 1, 2018**

Impact, Overview, Fees and Action Required

Impact Statement: A review of all Listing Reports is necessary to determine which products comply with new/revised requirements and which products will require re-evaluation. **NOTE:** Effective immediately, this revised standard will be exclusively used for evaluation of new products unless the Applicant requests in writing that current requirements be used along with their understanding that their listings will be withdrawn on the Effective Date noted above, unless the product is found to comply with new/revised requirements.

Overview of Changes: Additions to construction and test requirements. Specific details of new/revised requirements are found in table below.

If the applicable requirements noted in the table are not described in your report(s), these requirements will need to be confirmed as met and added to your report(s) such as markings, instructions, test results, etc. (as required).

Client Action Required:

Information – To assist our Intertek Engineer with review of your Certification Reports, please submit technical information in response to the new/revised paragraphs noted in the attached or explain why these new/revised requirements not apply to your product (s).

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.

Standards Update Notice (SUN)

Issued: February 2, 2017

Description of New/Revised Technical Requirements

Clause	Verdict	Comment
5.4.5		Addition of measurement of creepage and clearance distance per C22.2 No 0.2
