

# INLIGHT NETWORK

## GLOBAL INSIGHT. LOCAL EXPERTISE.

**Inlight Network offers a powerful supply chain community through an interactive online platform. Gain insight into supplier's compliance credentials and Intertek's local expertise in one, easy to use network.**

### Your Challenges

The global marketplace is ever changing and becoming more complex for both suppliers and buyers. Advances in technology, communication, and transportation, have allowed companies to transcend borders and become global entities. As a result international regulation and local legislation measures have increased the compliance focus for all in the supply chain. In order to remain competitive suppliers are subject to compliance requirements from the industry, governments, and their buyers. While the opportunities are numerous, so are the challenges.

Through the Inlight Network, buyers for brands operating on a global scale can easily view, track, and compare their supplier's compliance to the required regulations through an easy to use dashboard.

### Our Solutions

Intertek's Audit Programs have been developed by experts building on our decades of supply chain auditing knowledge and expertise. They incorporate industry regulations, legislation, and common compliance requirements, making Intertek standards a common program of choice for brands all over the world.

Inlight Network is the next step in engaging suppliers and buyer via a trusted platform, providing access to audit history, results and key business and compliance information packaged under an Inlight Supplier Risk Profile.

The aggregate supplier risk profile provides insight into their supply chain compliance objectives.

The Inlight Network provides a trusted platform for:

- Suppliers to showcase their profile, enabling them to share compliance data with existing and potential customers
- Enable buyers to attain enhanced visibility of their supply chain network to support and manage their compliance program objectives
- Provide access to global data, trends, insights to support business intelligence efforts

- Help reduce audit costs
- Protect your reputation and brand

Inlight Network provides unprecedented access to help suppliers bring compliance and integrity to their operations, and, in turn, give you, the buyer, immediate access to this information. Our vast network of local compliance experts, in more than 65 countries, offers the assurance needed to assist suppliers through training, guidance and continuous improvement.

### Inlight Network Benefits

- Highlight factories full business profiles, audit history and compliance status to increase trust, reduce number of audits required in future, reduce audit costs and invest in improvement
- Gain access to an Intertek database of supplier compliance scorecards and build your own network
- Access to self-assessment questionnaires and audit history, benchmarked against country/industry/global trends
- Dashboard management and executive reporting analysis
- Build or expand your supply chain network with trusted data from the Inlight Network private portal
