

FOOD & NUTRITION

Regulatory Affairs & Toxicology Consulting

Intertek can help you navigate the development and placement of a product into the marketplace with our team of professionals. Intertek is equipped to help clients achieve success in a fast-paced, changing global market.

At Intertek Assuris, we provide:

- Global regulatory expertise, and have experience in all major countries
- An expedient and cost-effective route for satisfying worldwide scientific and regulatory approval requirements

Top international food and supplement companies and ingredient manufacturers come back to Intertek time after time because we successfully help move their business ahead.

Whether you intend to market a food/feed ingredient, additive, or supplement, each presents business opportunities and challenges. Our expertise can help to navigate the complex scientific and regulatory requirements these products must meet to be marketed.

Our Team

Our team consists of experienced, well-recognized experts in scientific and regulatory consultancy, including Ph.D.s, board-certified toxicologists, nutritionists, and regulatory affairs specialists. Our scientific staff are located in offices in North America, Europe, and Asia. We also have associates in many other jurisdictions.

Food Ingredients & Additives

We prepare high quality submissions that ensure successful review within international jurisdictions.

These include:

- Generally Recognized as Safe (GRAS)
- Novel Foods [EU, Canada, China, Australia/New Zealand]
- Foods for Particular Nutrition Uses (PARNUTS) [EU]
- Foods for Specified Health Uses (FOSHU) [Japan]
- Food Additives and Enzymes
- Flavors and Colors
- Medical Foods

Health Claims

- Gap analyses to determine whether sufficient data exist to support a health claim
- Where data are lacking, assistance in the development, conduct, and management of clinical trials
- Preparation of health claim petitions and notifications for submission to regulatory authorities in the:
 - United States
 - European Union
 - Canada
 - Japan
 - China
 - Australia/New Zealand

Supplements

- New Dietary Ingredient (NDI) Notifications [U.S.]
- Natural Health Product (NHP) Submissions [Canada]

- Novel Foods and Food Supplements [EU]
- Complementary Medicine Listings and Registrations [Australia]

Regulatory

- Comprehensive global regulatory strategic planning and assessments
- Liaising with regulatory agencies, including facilitating meetings, providing independent critical advice on and responses to regulatory issues
- Provision of international regulations regarding foods, food ingredients, feed, and supplements

Additional Services

- Animal feed, pet food, and veterinary nutraceuticals
- Dietary exposure assessments
- Toxicology study and Good Laboratory Practices (GLP) support
- Safety and risk assessments
- Labelling reviews
