Intertek Total Quality Assurance expertise, delivered consistently with precision, pace and passion, enabling our customers to power ahead safely.

FDA Food Contact Notifications

- Design and implementation of migration testing protocols, dossier preparations and full notification submissions
- Impurity profiling
- Complex formulation identification
- Safety risk assessments
- Toxicity testing
- Environmental Assessments

Global Food Contact Petitions and Notifications

- Assist clients with new food contact substance notifications in Europe, China, South America, Japan, Switzerland and other countries in the most efficient way
- Petitions in compliance with plastics commission regulation (EU) No 10/2011 and amendments in Europe
- Submissions for the Japanese market (JHOSPA)
- Experts on the ground in countries of interest to liaise with Government Authorities and carry out Pre- Notice Consultations

Global Regulatory Compliance

Intertek provides an analysis and evaluation of consumer goods in contact with food followed by a detailed statement on compliance. We have in-depth knowledge of the applicable legislation and regulations governing materials and articles in contact with food and/or consumer products in North America, Europe, and other jurisdictions around the world.

Supply Chain Management

Acting as a third party in the value chain, we will coordinate information between business partners, evaluate formulations given to Intertek Regulatory Services under nondisclosure agreements, and ensure compliance of the evaluated products.

Sustainability Services

- FDA No Objection Letter submissions for recycled plastics
- Life cycle analysis
- Challenge test
- Safe Use Assessment for safe use of recycled materials in the market

Regulatory Agency Interaction

Our expert knowledge of the relevant legislations worldwide for food contact is a key resource to material approval and for commercialization into each market. Our wide ranging geographic presence and decades of regulatory experience have allowed us to create collaborative relationships with Agencies around the world, enhancing the regulatory process.

Educational Services

- Education for your employees on regulations relevant to your business
- Customized training courses conducted by experts (in-house or on-site training)
- Regulatory newsletters
