

IMPORT VERIFICATION PROGRAMME OF FISHERY PRODUCTS (VPTI)

EXPORTER AND IMPORTER GUIDELINES INDONESIA VPTI

OVERVIEW

Exporters/Importers trading in Fishery Products to the Republic of Indonesia need to comply with KSO Suconfindo - Surveyor Indonesia (KSO SCISI) requirements.

Intertek International Limited has been appointed as Surveyor Partner by KSO SCISI to conduct Import Verification or Technical Inquiry of Fishery Products in the Ports of Loading (POL) of Myanmar, Philippines and Taiwan prior to their shipment to the territories of the Republic of Indonesia.

As a Surveyor Partner, Intertek International Limited will carry out import verification or technical inquiry at the Ports of Loading (POL) of Myanmar, Philippines and Taiwan, of all the Fishery Products that are covered under the Regulation 66/2018 of the Ministry of Trade and are exported to The Republic of Indonesia.

Indonesia Requirements

The importer of the Fishery Products must have the following Identification numbers from the Ministry of Trade of The Republic of Indonesia.

Registration with Indonesia authorities

Fishery Products that can be imported under the Verification Programme or Technical Inquiry can be imported by the following registered importers:

- API-P - Producer Importer Identification Number. This is applicable for those importers of Fishery Products performing business in the industrial sector using raw/auxiliary materials of Fishery Products.
- API-U - General Importer Identification Number. This is applicable for those importers of Fishery Products of raw/auxiliary materials for the fish processing industries, including those that do not carry out importation of Fishery Products on their own as evidenced by a booking contract.
- API - Importer Identification Number. This is applicable to those importers belonging to the below group that import Fishery Products other than to meet the needs of industrial raw/auxiliary materials:
 - State-Owned Enterprises
 - Regional-Owned Enterprises and/or
 - Private-owned enterprises

Import Approval Permit

The registered importer needs to obtain Import Approval which is a permit to import their Fishery Products. This Import Approval includes the following minimum information:

- quantity of Fishery Products
- type of Fishery Products & Tariff Heading/HS
- port of Loading
- country of origin
- port of destination
- validity period of the Import Approval

Recommendation

The registered importers of Fishery Products should obtain Recommendation from the Ministry of Trade which is a written statement of the technical description of Fishery Products to be imported.

Marking and Labelling Requirements

- Labelling is mandatory for packaged goods. The label should indicate as a minimum the name of the goods (general name, trade name, scientific name), net weight, and name and address of exporter or importer written in Bahasa Indonesian and English languages. For unpackaged goods or bulk consignments the label information above should be included in the documentation (proforma invoice and packing list) and written in Bahasa Indonesian and English languages.

Exempted Consignments of Fishery Products

The provisions in this Ministerial Regulation shall not apply to imports of Fishery Products which are:

- goods of foreign country representatives;
- goods for government purposes;
- sample goods weighing at most 25 kilograms;
- passenger personal property weighing at most 25 kilograms; and
- goods for research purposes by considering certificates from relevant agencies.

Prohibition of Transfer of Imported Fishery Products under VPTI

- An API-P holder company is prohibited from trading and/or transferring Fishery Products that have been imported to other parties.

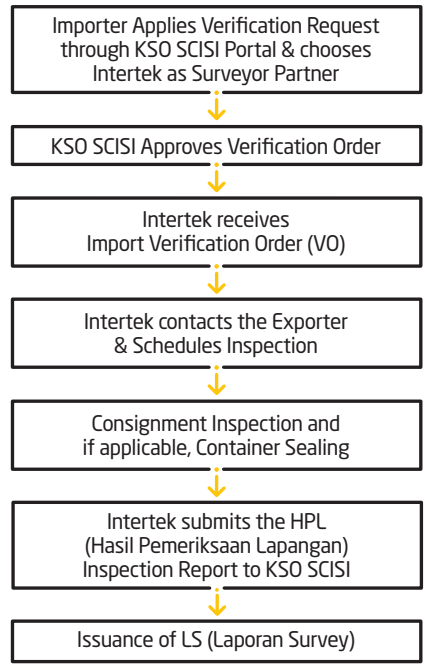

Note: Exporters are advised to contact local Intertek Offices for more information on exempted, prohibited, banned or restricted fishery products under VPTI.

CERTIFICATION PROCESS

The Fishery Products to be exported to The Republic of Indonesia will undergo import verification/technical survey. Consignments meeting the KSO SCISI requirements shall be issued with an HPL (Hasil Pemeriksaan Lapangan) Inspection Report by Intertek and LS (Laporan Survey) Surveyor Report by KSO SCISI which can be used to clear the consignments on a fast-track basis at the Customs upon its arrival at the ports/ borders of the Republic of Indonesia.

IMPORT VERIFICATION PROGRAMME STAGES

Verification Order

Intertek will review the Verification Order (VO) and will contact the exporter for scheduling of inspection.

Inspection

Intertek as Surveyor Partner will perform inspection of the Fishery Products that includes verification of the type and specification of goods, product labeling, packaging, and other necessary markings and physical requirements.

Sealing

FCL consignments of Fishery Products shall be sealed using Intertek's seal and the shipment must not be tampered with after sealing.

Submission of HPL (Hasil Pemeriksaan Lapangan) Inspection Report

Inspection results will be submitted electronically to KSO SCISI.

Laporan Survey (LS) / Surveyor Report

Fishery Product Consignments that comply with Inspection will be issued a Surveyor Report which will help the importer in clearing the shipment at the Customs of The Republic of Indonesia.

3

FEES

FEES FOR CAP

The party applying for import verification technical inquiry is responsible for the payment of charges to KSO SCISI. The fees include the cost of inspection, evaluation, and all other technical and administrative activities involved in the import verification/technical inquiry.
