Whether you need electrical safety, performance, environmental, sustainability, or flammability testing, Intertek can help you establish and maintain a positive brand reputation based on the quality and performance of your furniture and equipment.

Partnering with Intertek assures you quick delivery of knowledge and operational excellence that only an experienced partner can provide.

Throughout our global network of accredited labs, we provide a variety of product testing and technical services for home and commercial furnishings. Our services verify compliance with both mandatory regulations and voluntary standards, allowing you to establish quality and be confident in knowing how your product compare to the competition.

Our Furniture Services include:
- BIFMA level™ Sustainability Certification
- California Prop 65 Compliance
- Children’s Furniture Testing
- Chemical Testing
- Flammability Testing
- Furniture Inspection Services
- Safety Testing and ETL Certification
- Life Cycle Assessment
- Materials Testing
- Mattress Testing
- Performance and Durability Testing
- SEFA Testing and Certification
- VOC Testing & Certification

Delivering Product Expertise
At Intertek, we have decades of experience testing a full range of materials and furnishings. We provide unparalleled furniture testing expertise for chairs, stools, beds, mattresses, tables, sofas, shelves, and children’s furniture. In addition, we also test:
- Modular pedestals
- Storage units
- Laboratory and hospital furnishings
- Auditorium, stadium and educational facility furnishings

Intertek’s ETL Environmental VOC Mark
Intertek provides comprehensive certification services to validate your VOC claims. Labs accredited to ISO 17025 help to verify your product's compliance with globally recognized and regulated VOC test standards, including BIFMA, LEED, and California standards.

Widely Recognized. Fully Accredited.
With recognitions by all major code bodies, Intertek is accredited to test products to the following standards allowing us to deliver a standard of excellence in service.
- ANSI
- ASTM
- BIFMA
- BS
- CISCA
- CSA
- CPSC
- EN
