New Zealand
Product Safety Standards (Children's Toys) Regulations 2005
Published

New Zealand has published the Product Safety Standards (Children's Toys) Regulations 2005 to adopt the standard AS/NZS ISO 8124.1:2002 "Safety of Toys - Safety aspects related to Mechanical and Physical Properties" as varied, to be the mandatory standard for toys used by children up to and including 36 months of age.

From 9 September 2005 to 10 August 2006, suppliers can choose to meet either the New Zealand Standard NZS 5822:1992 "Prevention of ingestion and inhalation hazards in toys intended for use by children under three years of age" or AS/NZS ISO 8124.1: 2002 as varied.

On 11 August 2006, Product Safety Standards (Children's Toys) Regulations 1992 will be revoked and NZS 5822:1992 will cease to have effect as well.

Intertek is able to perform the captioned test.
