Valued Quality. Delivered.

Trading with Uzbekistan

Helping you comply with export
and import requirements

Like many governments around the world, it is important that Uzbekistan ensures that correct import duty revenues are paid on all imported goods, as per the government's requirements.

This is why Uzbekistan have appointed Intertek as one of the providers of its inspection programme - to ensure all shipments with a minimum contract value of US\$10,000 are inspected in the country of export before they are allowed into Uzbekistan. Products of certain tariff codes must comply with the inspection programme and/or be accompanied by a Report of Findings.

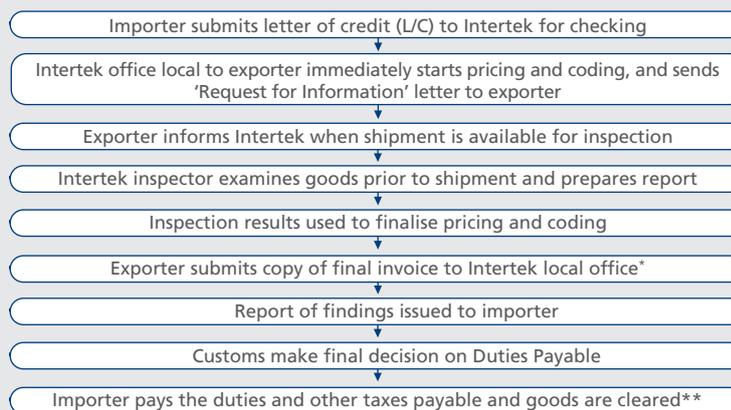

The requirements for Uzbekistan include:

When exporting to Uzbekistan, the following Intertek process must be followed:

- Importer Declaration - Your buyer supplies Intertek with the details of their intended purchase.
- Request for Information - Once completed, it outlines the details for Intertek's inspection.
- Physical Inspection - All packages or containers of goods are inspected and sealed.
- Pricing and Tariff Coding - Intertek indicate the Customs tariff code, duty and taxes payable.
- Preparation of Exporter Certificates - Issued once Intertek have received a copy of final invoice.
- Preparation of Importer Certificates - Your buyer is issued with an Importer Certificate.
- Clearance of Goods - Your buyer can clear the shipment through customs.

Route of Certification

* If no final invoice is presented or if goods fail inspection, a 'Non Negotiable Report of Findings' will be issued and goods cannot be cleared ** If an inspection was required, but the exporter ships goods without inspection, the importer is charged for inspection on arrival, and fined 10% of the assessed CIF value.

The Intertek Solution helping you export to Uzbekistan

An Intertek inspection programme not only creates the confidence that shipments comply with the specifications agreed between the exporter and buyer, it also assists buyers to clear goods rapidly on arrival in Uzbekistan.

- Fast - Intertek uses state-of-the-art IT and communication systems to ensure that information is rapidly transmitted to our offices around the world.
- Accurate - Intertek staff place the utmost importance on ensuring all inspections and documentation are precise, accurate and delivered on time.
- Responsive - Your dedicated Intertek export analyst is your one-stop contact who can give you any advice about the inspection programme.
- Confidential - Intertek comply with all applicable WTO legislation, including the requirement to keep all information completely confidential.
